Introduction

FDNA recognizes the opportunity we have to make a positive difference for our environment. We are dedicated to reducing our environmental footprint and making smart use of our resources. We invite everyone—staff, volunteers, and members/visitors—to join us in adopting environmentally friendly practices and making thoughtful choices every day.

FDNA will do our part by meeting all relevant environmental standards and regulations. We're always looking for new ways to lessen our impact and encourage sustainable actions—both within our stadium and in the wider community.

Purpose

This Environmental Sustainability Policy aims to encourage sustainable development into all the Association's plans, and to establish and promote sound environmental practice in our operations.

POLICY

FDNA commits to minimising our impact on our environment through:

- Providing a safe and healthy workplace.
- Having an environmentally sustainable awareness culture.
- Being an environmentally responsible neighbour in our community.
- Conserving natural resources by reducing, reusing, and recycling.
- Using processes that limit the effect on the environment.
- Ensuring the responsible procurement and use of energy throughout the facilities.
- Promoting efforts to improve environmental protection and understanding;
- Taking steps to improve environmental performance.
- Conducting audits and self-assessments of the implementation of this policy.
- Working with suppliers who promote sound environmental practices.
- Enhancing awareness among our employees, volunteers, and members – educating and motivating them to act in an environmentally responsible manner.
